 COMMENTS:

Missouri State University, along with representatives from seven other local entities, has been participating in meetings over the last several months with the goal of developing agreed-upon guidelines for providing opportunities to local, minority-owned businesses. This is an initiative of the Springfield Area Chamber of Commerce. In addition to Missouri State, the participating organizations are: City of Springfield, City Utilities, Drury University, Greene County, Ozarks Technical Community College, Springfield-Greene County Library District, and the Springfield Public Schools.

As a result of these meetings, the attached Diversity Program Guidelines for commodities, services and construction were developed and agreed upon as well as the workforce diversity principles referenced above. The intent of the guidelines is to help each entity widen opportunities for vendor participation, increase competition, and reduce costs. The guidelines are not intended to provide a preference for one vendor over another, but rather to allow all qualified vendors a full opportunity to compete.

The attached proposed guidelines have been endorsed by the Springfield Minorities in Business group. In addition, each participating entity has agreed to seek approval of the guidelines from its governing body.
